成长地图
ROADMAP 

A Long-Term Journey

一段长期的成长旅程

羽毛球的成长是一段**长期的旅程**，而非一次性的考试。技能树帮助球员、家长与教练清楚地看见球员在这段旅程中的位置——已经走过的、正在攀登的，以及前方的路。

Badminton development is a **long-term journey**, not a single test. The Skill Tree helps players, parents and coaches clearly see where a player stands along that journey — what has been travelled, what is being climbed, and what lies ahead.

ALREADY

已经学会 What They Have Learned

看清球员已经掌握的技术，肯定每一分努力。

Recognise the skills a player has already built — and honour the work behind them.

IN PROGRESS

正在提升 What They Are Improving

明确当前正在打磨的技术，让每次训练都有重点。

Pinpoint what is being sharpened now, so every session has a clear focus.

NEXT

即将学习 What They Learn Next

看见前方的技术，让进步的方向始终清晰。

See the skills ahead, so the direction of progress is always clear.

每一项技术，都用同一把量尺来评估。

Every skill is evaluated on the same Mastery Scale.

这不是一本教学手册，也不是训练指南，而是一张**可视化的成长地图**。翻到下一页，认识贯穿整份技能树的五星精通量表。

This is not a coaching manual or a training guide — it is a **visual progression map**. Turn the page to meet the 5-Star Mastery Scale that runs through the entire Skill Tree.

MASTERED

The Mastery Scale

五星精通量表

技能树里的每一项技术，都用这五个等级来评估。它把「学会了没有」的模糊问题，变成一条**清晰可见的进步阶梯**。

Every skill in the Skill Tree is rated on these five levels. It turns the vague question of "can they do it?" into a **clear, visible ladder of progress**.

Introduced

已接触

已开始学习该技术，需要大量指导。

The player has been introduced to the skill but still requires significant guidance.

Developing

初步掌握

已理解动作，但稳定性仍需提升。

The player understands the movement, but consistency is still developing.

Competent

稳定执行

训练中能够稳定完成动作。

The player can perform the skill consistently during training.

Game Ready

实战应用

能够在比赛中自信地运用。

The player is able to apply the skill confidently during real match situations.

Mastered

精熟运用

能够灵活应用，并根据不同比赛情况做出调整。

The player demonstrates excellent consistency, adaptability and confidence under different situations.

评估时，教练在每项技术旁的五颗星中填涂对应的星级。**空白的星星，正是尚未走完的路**——它们让下一步的方向一目了然。

During an assessment, the coach fills the stars beside each skill to the level reached. The **empty stars are simply the road not yet travelled** — making the next step easy to see.
